

# A genuine experience of traditional rural life in the north of Ghana!

MEET AFRICA Rural Village Experience and Lodging (MARVEL)

If you like to:

- stay in a host family in a rural village
- interact and connect with the people living in the village
- visit tourism attractions focussed on local traditions and culture
- experience the real African way of life
- contribute to community development

**Then you should come to Sognaayilli!**

Meet Africa Rural Village Experience and Lodging offers you an experience of the traditional life in a rural village in the north of Ghana, an experience that is genuine and brings people from different worlds together. You will stay in a host family in Sognaayilli, **a village in the proximity of Tamale**. The village is easy to reach through a dirt road branching the main Tamale-Gurugu road. Besides experiencing the local culture, another keyword is relaxation; we want you to be able to relax and enjoy the beautiful nature and scenery. Additionally you have the possibility to experience some tourist activities with a focus on local traditions, culture and interaction with people from the rural village. **Our product is unique and fun!** You can really interact with the Ghanaian people and enjoy their way of life.

Price per person per night: **15 GHc**

This includes your stay in a **private hut** and the use of a **clean toilet**.

The family serves you **breakfast, lunch and dinner**.

Your stay in Sognaayilli is based on the concept of pro-poor tourism. Meet Africa explicitly wants to use tourism as a way to generate opportunities for development for people in the rural villages around Tamale. With your fee Meet Africa pays the host family and the employees. Besides this, a big part of the money goes to the **Meet Africa Project Foundation**, which supports the development of Sognaayilli and some local projects in and around Tamale. In consultation with the people of Meet Africa the residents of Sognaayilli will decide how the money will be used. For example the people of the village wish to invest the money in an adequate water supply.
